## **CUMBAM ACADEMY OF ACUPUNCTURE**

Cumbam academy was begun in the year 2004 with the aim of educating the public an appropriate and complete Acupuncture. The acupuncture medical system is indeed a part of the peerless classical science that has lost its fundamental philosophies and has been made to practice as an ancillary supporting therapy for english medicine in many countries.

And this is the condition of classical medical systems in India. The classical medical systems have been combined with the theories of english medical system saying that it is a view of modern medical science. The philosophies of classical medical science were dropped step by step and a pathetic situation arose in which usage and manufacturing of medicines became the only practical viability.

To avoid this situation, to educate this proficient acupuncture medical system which provides simple solutions for all diseases, Cumbam academy was started. The syllabus and training containing the simple practical methods of acupuncture and the strong philosophies are created by the team of masters of cumbam academy making it possibly available to each and every individual on earth.

Cumbam academy is educating this drugless medical system Acupuncture with its uniqueness and without combining any other medical systems. Thousands of students of Cumbam academy are excellent acu healers practicing all over India.

Admissions are open for the acupuncture studies and training programs in all the centres of Cumbam academy in Tamilnadu.

By completing the training programs on time, the students who have passed the university exams will receive the certificates from the respective university. Students who have received the certificate can register themselves in the "Acupuncture Healers Federation India" and practice as an Acu healer according to the acupuncture rule of the central government.

15. Acu Healer. B.T.Rajendran

## **ACUPUNCTURE -THE DRUGLESS THERAPY**

Acupuncture is a wonderful medical system functioning in harmony with nature. By stimulating the acu points which are present just above the surface of the skin with your finger or needle is the treatment method of acupuncture. Chinese acupuncture which was discovered 8000 years ago did not use any medicines, syrups or chemicals in their acupuncture medical system.

Due to the disfunction of the twelve important organs of our body, morbid are stagnated. This morbid stagnation is the root cause of all kinds of diseases. By diagnosing the disfunctions of the internal organs through classical methods and by balancing the functions through stimulation of acu points , one can be alleviated from any disease. The main highlight of this medical system is balancing the disfunction of the body gives complete relief from any disease whether the disease is in the beginning or in the final stage .

In 1984, the doctor brothers - the allopathic doctors - Dr.Fazlur Rahman and Dr.Siddiq Jamal by realizing the values of the philosophies of acupuncture started acupuncture treatment methods in Tamilnadu. Lakhs of people who took treatment from them got revitalized through acupuncture. The doctor brothers rediscovered the proper pulse diagnosing method along with the classical acupuncture methods.

Single point - one minute treatment

With these magical words we welcome all of you to join the service. Travel along with nature to save the world from drugs.
